Daily Egress Inspection Form

You are required as a "***Place of Assembly***" to perform ***daily egress inspections*** per the NFPA 101, Life Safety Code. The building owner or agent shall inspect the means of egress to ensure it is maintained free of obstructions, and correct any deficiencies found prior to opening the building to the public. Upon completion of this inspection, please date, print full name, and if problems are found note in the comments column of this inspection form.

This form shall be made available for review by the fire official at anytime during business hours. Completed forms will be collected when renewing your Place of Assembly Permit.
